I. ..annot ..t speak the things which we have seen and heard. Acts 4:20

Some folks seem so naive, or dumb, that they want to know how I stand on the election Saturday. I must have lived and written in vain for the past 3 or 4 years. But here it is, insimple, unmistakable language. I am FOR the C. M. plan. I shal volte against a change, by voting AGAINST, in the bottom part of the ballot. For God's sake, read the ballot so that you will not get confused. You understand, I am voting AGAINST a change and thus voting to keep what we have. That should be simple.

Your earnest attention is invited to the contents of a big ad elsewhere in this issue, an ad written by Juel Batson, chairman, and Walter Garner, co-chairman. This ad contains the very heart of the contentions of those who want to keep our present form of government. Both of these gentlemen have served as aldermen under the CM plan and should know what they are talking about. It is a fine, terse and concise statement of the views of the many citizens for whom they speak. I wish personally to endorse what they saiy in this ad.

To give the reader, outside Grenada, a better understanding about who's who, let me identify a few of the names I have mentioned in my discussions of this matter. Clanton is the Mayor; Crumby is the police chief; High Pockets is the cop who fakes up parking meter pennies; Proby is an ex-Mayor; Talbert is former Street Commissioner, now a Councilman; Bill Moser is the Chairman of the Steering Committee on the "other side" and has written some fine pieces for publication; McEachin is serving now as city manager; Johnnie Golliday is the colored janitor and the oldest employee of the city, aside from the fire chief Juchheim. Now, read on.

I have refrained from doing any predicting about the outcome of the election and I have declined to make any interpretation of the proposed charter change. The City of Grenada pays us to PUBLISH it, not to INTERPRET it. However, I think the changes are bad for Grenada.

You just know we are crowded this week. We left out Fed Robinson, even if we got in Gore Springs. You can see we even squeezed the type, then had to omit a helluva lot of stuff. Next week, no doubt we will be crying for news and ads. This, indeed, has been a hellava week. I am going to squeeze this in, anyhow; dont vote to kick out Dr. Bob.

I read a piece in the Star Tuesday, a piece signed by about 300 citizens, that says that, under the proposed set-up, nothing would prevent one alderman being City Clerk, another Street Supervisor, the third the Police Chief and the fourth Water Supervisor. That, too, is bad.

Greanada Theatre performed a great service to Grenada by bringing in the wonderful technicolor film of to coronation of Queen Elizabeth of England.

A Negro told me that he saw Mr. Chamellon, an officer dressed in a Mother Hubbard, snooping around in West Ward (the colored section) recently. He described him as the "fat un".

Somebody asked me why I did not have Vaughn's name carved on that tombstone last week. I just forgot Vaughn. Carve his name on it, Andrew.

It looks like Cousin Ezra Benson is fixing to mess up the Soil Conservation Service world without end. Jamie Whitten, our watchdog, had better watch Ezra as well as the rest of those gdrepublicans.

Soil conservation, in a world where soil is washing away and blowing away, while the number of mouths to feed from tnat soil is increasing rapidly, is a worldwide, not a nation-wide problem, a state-wide, a county wide and a farm-wide problem.

Did you know that, under Ezra scheme, they will "bump" such fellows as Rex Blue who knows Grenada County folks and conditions put Blue in, say, Webster County where he will require many months to RElearn; then put a fellow from Webster County, who knows nobody and nothing in our county, in Grenada County. If you dont know this you had better wake up, you folks iterested in a countinued program of soil conservation.

Johnnie Capuson, the former Capsule Cop, and his charming little wife Roxanna, of Millington, were in Grenada, visiting the po' Perries and other kinsfolk and friends the middle of this week.

Burt Boyce is back here with Dyre-Ker; and this news will delight many of his old friends and customers BUT, as Fess Bailey and I were saying, Burt's return to the scene will take the honor of being the biggest liar in Grenada from Tommie Dorras, who has been holding that honor, since Burt left Grenada.

I have joined those who dont believe a damned thing Tommie says, particularly about fishing. For example Sunday, Tommie told me exactly where Fess Bailey's boat was and that it was NOT locked. Knowing Tommie, I checked up with Fess, found the boat WAS locked, and was actually located about a mile from where Tommie said it was. Monday morning, Tommie wanted me to go fishing with him at 9. I told him I would check up at the office and let him know right away. That's the last I have seen of Tommie. I dont blame Daves and Bailey for their non-confidence in Tommie. About the only redeeming feature of Tommie is that he has a lovely, truthful wife.

dere mr top, is it a jack thet thay is goin 2 mak mr tondy fat the cheef uv poolice.

Don't Vote To Kick "Dr. Bob Out"

"Whatthehell you talking about - kicking Dr. Clanton out"? I have been asked by a skeptic.

If you dont know, I will tell you and I will let you read for yourself, and will bring up Bill Moser and McCune Talbert for the "other" side.

I did not get up this scheme. "They" got it up. It is theirs, not mine. Look at it, read it. It is again published in this issue. Look at Sec. 14. It's their scheme, not mine. They, not I, got it up. They, not I concocted it. Read in Sec. 14 that ::Provided however" about immediately "filling the office of Mayor of the City of Grenada." I did not write it. They wrote it.

Who is Mayor now? Has Dr. Clanton quit, does he want to quit- or is this a scheme to "kick Dr. Clanton out"?

There aint nothing in the published plan about "kicking Dr. Bob out", I admit that. Dr. Clanton's name is NOT mentioned in the published scheme.

But what, if not kicking Dr. Clanton out, does this plan mean?

Bring up Bill Moser, who has done most of the work connected with this plan, and ask Bill I! Bill says it dont mean, "Kicking Dr. Bob Out", then ask Bill, who seems to be running the show, WHAT it does mean.

It would not be stretching the imagination very much to say that McCune Talbert, who wrote me, "Personally I think the CM form of government is a failure in Grenada and never should have been adopted . . . is hand-in-glove with Bill. Bring up McCune and ask him if voting for the scheme does not mean "kicking Dr. Bob out", then ask McCune what it does mean, if not THAT.

Dont take Whyte Whitaker's word. Read Sec. 14; ask Bill Moser; ask McCune Talbert.

Remember this scheme is theirs, not mine.

I repeat: if you vote to kick out the CM plan on the 24th and that's Saturday, you also vote to kick out Dr. Bob Clanton as Mayor.

I rest my case.

SEEN, HEARD & TOLD BY THE EDITOR

It looks like all of the farmers have turned against Ike and organized labor has turned the same way and it wont be long before most of the veterans will turn on him, just as soon as he turns a little more a-on them. Common folks today are already cussing Ike more than they cussed the ebullient Harry. I right - gdrepublicans.

Chi... are lagging behind in ... year it was on Thanksgiv... ...s dropped back to December ... they Defenbaugh had continu... charge, they would have it abou... on Labor Day in 1958.

But Rodney, I am happy to say, seems to be confirming his great talents to Rodney and Grace and their little boys, as he should have been doing all the time and today, he is fathering one of the most beautiful, if not the MOST beautiful subdivision in Grenada.

Old man Wallace Lamon has been lazing around close to the GCW office, ... to see someone, for the ... on with back door. He could ... one minute each second, Friday but the fellow saw that big French army rifle in the window and must have changed his mind.

I have made arrangements with Radio Wells to tune up the antennas on Albert Cohen's ears. It seems that his sharp ears failed to find ... what Henry Benthal wanted with T. Darras one day last week, but Albert dont miss much.

Folks DO understand, however, that if they vote FOR the charter, they vote to kick out Dr. Clanton; just forget everything else and vote against the thing and save Dr. Clantons job as Mayor.

I want Bill Moser and me to vote an absentee ballot Friday and, at once, head out to Enid fishing. By that time oeth of us will have finished our work.

"SEEN, HEARD AND TOLD BY THE EDITOR"

We cannot but speak the things which we have seen and heard. Acts 4:20

As the prophet in the Bible said Mc Cup Runneth Over. I have been fishing with Henry Ray and Radio Wells. The cup will really slop over when I get to go with Dr. Clanton and Crumby.

Buckingham is not a human being. He is a common house cat at our house, but Buckingham has an outstanding human characteristic. He wont catch a rat as long as I bring him hog kidneys from Leverette's Market, or fish from Enid Lake. So it was not too smart of him Monday when he caught a tiny little mouse. He was hungry and did not get a small bass from Enid or a hog kidney from the market, but we were mighty proud of him just the same. We merely pampered and spoiled him like some of his human counterparts.

If folks aint got sense enough to read and understand this new scheme which has been written very clearly by Bill Moser, or whoever wrote it, then they ought to have Joe Stalin sent in to govern them. The scheme has been published in full four separate weeks in the GCW. Everyone, of course, does not get and read the GCW, but, before voting on an important measure, citizens should borrow, buy or steal a copy - anyway, find out whathehell it is. The scheme is in this issue again today. Read it!! Dont come up and say you thought it was going back to the old form. Bill Moser, or whoever wrote it, made the matter very plain, in the legal notice. I am not going to explain it, or interpret it. Get Bill to explain it. He is the one who toted it around all over town.

Gloria and Bill Lomax have a mother cat named Butch. Butch has had 23 litters of kittens, 85 in all. They have a complete record of where each of the 85 kittens have found homes. Butch's geology record shows the name of the father of the first 6 sets. The father was Bet Horn's cat who was killed after the 6th set was born. No complete record of subsequent fathers was available. Bet Horn was billed for half of the maintenance cost of the first 6 sets of kittens, but he retaliated by billing the Lomax's for stud fee and they cancelled out the two accounts.

To show how intelligent one important member of the "other side" is, he told a friend of mine (I was neutral in the matter) that Whyte Whitaker said he was going to bring old man Crump from Memphis down here. Seeking to find any reference I made to Mr. Crump, here is what was in the paper quote "or whether Crumby came from Memphis". That is the way folks run both sides for that matter). understand(?) what they read. Civilization is indeed a failure when folks cant understand simple things they read.

I want to recommend that you read the article in Monday's Scimitar Star outlining in detail the report of the City Manager for the year ending September 30th. And I want also to commend Mr. and Mrs. Grimes for publishing this article as a legitimate news item on their front page. The GCW's regret is that it just did not have room for the fine article.

Congratulations to Grenada Theatre on their new giant panoramic screen that permits folks to see the pictures at their best.

Crumby's church affiliations, or lack of them, seem to be a great issue. There are 2 sides to the here-say tales: (1) somebody said that somebody said that a lady got up in her church meetin' and in a horrified voice, said that Crumby aint no christian at all; (2) Mabel told me that Rosa Ray told her that Louise Jordan told Rosa that Crumby told her that he was a member of the Church of Christ, and his wife an Episcopalean and that he (Crumby) attended both churches. I have not heretofore had my "say" in this very important(?) matter, so I say now that I dont give a damn what church he is a member of, or whether he is a member of any church, just so he does a good job of policing the town.

Hearing that Buckingham was out of fish and out of hog kidneys, Mrs. Bloodworth sent Buckingham some nice beef scraps Tuesday noon.

I just dont think the "other side" appreciates me, and appreciates how helpful I am and have been. I remember, several years ago, about the time of the city election I suggested a way how an elected alderman could be made the City Manager. I suggested that the alderman resign, then immediately be appointed manager by his colleagues. "They" tried it, but someway or another the "timing slipped like the time used to slip on an old Model T Ford. I dont think "they" now appreciate my suggestions about whom they run for "their" mayor.

I am not kidding myself. Folks who think like I do in the current issue today think I am a grand person and that nothing is too good for me. Folks on the "other side" look at me like a bull looks at a bastard calf and put me down even below a whale's excretion (at the bottom of the sea.. That, as stated is TODAY. The same set that is bragging on me today will turn on me TOMORROW when something else comes up and I am agin 'em. Fame and popularity are awful short-lived. As may be and should be well-known, I dont make PERMANENT alliances with any man, or any set. I run my own show. Up today, down tomorrow!!

WOODLAND PROTECTION

By Roy R. Bliss SCS

Most business men put their money in the bank to keep it safe. Good timber is already source of cash and often represents the only insurance many farmers have against a rainy day.

With the fire season at hand, farmers should do everything possible to keep fire from their woodlands. Fire breaks 12 to 15 feet wide should be disked and plowed to divide the woodland into smaller plots. The fire lanes should be located along ridge tops. Advantage should be taken of natural barriers, such as roads, streams, etc. Once the fire breaks have been established, the annual maintenance cost will be very little.

Soil Conservation Service personnel are available to cooperators of Grenada County Soil Conservation Dist. to assist in laying out and constructing firebreaks.

No Liquor Defense

Lesson for October 25, 1953

ON THE SOUTH side of a large sign in front of a Methodist church on a main highway are the words: LIQUOR HAS NO DEFENSE. The church did not invent that expression; it is a quotation from Abraham Lincoln. On the opposite side of the sign, drivers coming the other way see this:

Drink
Drive
Death

Even the companies that make money out of drunkenness (the more liquor, the more profits) know that the north side of the sign is true, and will say so in large paid advertisements. Liquor certainly has no defense as a drink for drivers. But some of the other defenses put up for alcholic liquor as a beverage that "belongs," that is part of the social scene, do not sound so good when they are taken down and looked at with a cold and sober eye.

• • •

Alcohol Is A Drug

The one thing that defenders of alcoholic beverages invariably keep quiet about, is the simple fact that alcohol is a drug, a harmful drug, a habit - forming drug. No amount of advertising can talk that fact out of existence.

Dr. Foreman

That it is a fact, can be witnessed to by anybody—he does not have to be a preacher!—who has had to deal with the wretched people at the bottom of the slide that was lubricated with liquor. Alcoholics are sick people; that is a recognized fact; but alcoholism differs from all the other diseases in the book in this one vital thing: No one can say to himself, I refuse to have tuberculosis, I will never have cancer. He may come down with those diseases in spite of his best intentions. But any one may say to himself: I will never be an alcoholic. And he can make that resolution stick, simply by staying away from alcohol. On the other hand, no man or woman who mixes alcohol in his system can ever be quite sure he will not be an alcoholic. No alcoholic ever meant to be one.

Drugs Have No Brakes

Now the trade in alcoholic liquor is legal; trade in other drugs such as heroin, cocaine and similar drugs, is strictly illegal except for medicinal purposes through regular pharmacists, and on doctors' prescriptions. Still there are a great many people who in spite of the difficulties do manage to buy and use these forbidden drugs, and of course there are always the conscienceless people who sell the stuff to the addicts.

But let us suppose we listened to the defenses of ordinary liquor, if applied to other drug habits. How ridiculous they would sound! We are told that the habit of drinking liquor is a long-established American way of life. Well, the taking of cocaine is long-established too. People will buy liquor—legally or illegally; they will buy heroin too in spite of all the laws. People will steal cars, and forge checks—it's been done a long time. But that doesn't make it right.

Or again, consider the pleasure people get out of liquor. Why, of course. They get an even keener pleasure out of shots of other drugs than alcohol. Every time you put a drug addict into a sanitarium you deprive him of his greatest pleasure in life. But that does not make his habit any better. But, it will be said, self-control is the answer; a drug used in moderation is not so harmful as when used to excess. True; but the trouble is, no drug has brakes, and drugs of the kind that alcohol and heroin are, actually weaken self-control instead of making it stronger.

Stuff And Nonsense

The reader can amuse (or horrify) himself by thinking of other antique arguments used to bolster the cause of those who use, or who profit by other men's use of, alcoholic liquors. How do they sound when used in defense of other drug habits? "The illegal drug business gives employment to thousands." "To interfere with this traffic is to interfere with free enterprise, the right of every man to make his living as he sees fit." "To interfere with this traffic is to interfere with men's personal liberty. Even if a man ruins himself with cocaine, it's his own business."

New '54 Chryslers Set New Standards Of Power and Luxury

Joe Neely, president of Grenada Auto Co. returned today from Memphis where he attended one of a series of 25 nation-wide meetings being held by Chrysler Division of Chrysler Corp. to preview the 1954 Chrysler.

"The completely redesigned Chryslers for 1954 introduce new high-horsepower Fire Power engines—the most powerful an defficient passenger car engines in America today—plus many major engineering advancements combined with the smartest, bost beautiful exteriors and interiors in Chrysler's 29-year history", Mr Neely said.

In addition to new FirePower V-8's and new, colorful styling, outstanding engineering features designed for luxurious performance include the new PowerFlite fully automatic transmission — fully proved by use in 1953 Imperials — a new Airtemp air conditioning unit, full time power steernig and power brakes, new anti-roll front suspension and new 'solid feel' ride, all of which add up to a new high in driver control.

"These cars, I am sure, will set the new standards for automotive excellence," Neely said. "They are the most luxurious cars Chrysler has ever produced and incorporate improvements which assure Chrysler having America's First Family of Fine Cars."

During the month of October, Chrysler's 3,500 dealers coast to coast will have attended similar meetings to preview the new 1954 Chryslers.
